

# Stainless Steel Door Transfer Grille.

## Type: DTG-SS

### APPLICATION:

The DTG-SS is a Stainless Steel Non Vision Transfer Grille which has been specifically designed for use in Doors & Walls where conventional aluminium or mild steel products are not desirable either for hygiene, corrosion resistancy or perhaps just simply for quality & aesthetic reasons. This product by nature of the manufacturing process remains robust and resistant to many chemicals cleaning fluids etc. Applications such as Laboratories, hospitals, pharmaceutical and industrial premises as well as wide range of marine facilities.

### SPECIALS:

Due to the flexible manufacturing process it is possible to provide many different blade arrangements in terms of thickness and angle as well as depth for increased strength. Alternative shapes are possible e.g. circular, triangular & hexagonal.

### STANDARD:

Our standard construction is of Stainless steel 304 grade with a Satin polish.

### MATERIALS:

Stainless Steel 304 DP1 or 316 DP1 marine grade

### CONSTRUCTION:

Pressed formed frame & blades with rod and spacer assembled core. Alternative material thicknesses are available.

### FINISH:

Polyester Powder Coated. (for mild steel option)  
Galvanized after manufacture.  
Mill finish Stainless Steel.
